How it works in brief

A simple guide to getting virtually any gadget of your choice ... FREE

Today's must have gadgets can be very expensive and who honestly enjoys paying full price for them? www.gettafreebie.co.uk will show you how to get the latest gifts and gadgets without spending a penny!

How can companies afford to give away free expensive gifts?

It's all thanks to affiliate marketing, a relatively new concept that is taking the internet by storm. The system has recently been featured in the media on BBC Newsnight, CNN, G4TV, NBC, T3 Magazine and in The New York Times.

Many large, reputable companies such as **The AA**, **Asda**, **BT**, **E.on**, **Ladbrokes**, **LOVEFiLM** and **SKY** use affiliate schemes to gain new customers via online advertising. They pay affiliate marketers money to advertise their services to the public. Affiliate marketers are happy to give away free gifts to people like you when you try (or buy) participating products and services.

So where's the catch?

There isn't one. Using the information provided you'll see it's easier than you'd think to get the free gift of your choice.
